

ESTILL

Voice Training®

Find a new way!

Discovery

Estill Voice Training® is all about finding a new way to use your voice. Experience “Figures for Voice” — exercises for vocal freedom — and apply the insights you gain to create new vocal colors. A Workshop will give you an introduction; a Level One course will teach you all of the “Figures”; Level Two will show you how “recipes” can be “mixed” for Six Voice Qualities: Speech, Falsetto, Sob, Twang, Opera, and Belt. Re-energize and re-new your voice. Speak, sing, and find a new way with Estill Voice Training.

Advantages

Efficient: We produce fast results in classes where everyone can learn together. After discussion and demonstration, classes split into small groups for individual attention.

Effective: Engaging books and creative media make learning about the voice fun. See the voice in action through Estill Voiceprint Plus, a user-friendly software program from Vocal Innovations.

Liberating: Any non-abusive voice quality is accepted and nurtured, embracing cultural and musical diversity. Learn where risks lie and how to avoid them!

Focus on Craft: Craft separates vocal “mechanics” from “art”. Working from simple natural vocal expressions, such as laughing and crying, Craft produces fast results and provides the tools to make artistic vision a reality.

Universal: Our focus on Craft benefits actors, executives, singers, teachers, and professional speakers—anyone with a voice! Estill Voice International’s certification process ensures that every teacher, workshop and course throughout the world provides the highest quality instruction.
